PROFILE

Computer Science and Engineering student at BRAC University building web applications with React, Node.js and SQL databases. Projects cover portfolio publishing, ride pooling and healthcare workflows, with practical experience in request validation, data consistency, automated tests and deployment.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, PHP, SQL
Web: React, HTML, CSS, Node.js, Express.js, REST APIs
Data and tools: PostgreSQL, MySQL, Git, GitHub, Vitest, Playwright, Postman, Render

SELECTED PROJECTS

FolioNest | React, Express, PostgreSQL | Live | Source

- Built 11 responsive portfolio designs, guided forms, local autosave, backup restoration, and PDF, PNG and offline website exports.
- Implemented optional authentication, cloud drafts and public snapshots with ownership checks; added API and browser tests for editing, persistence and downloads.

Dhaka Tesla Pool | React, Node.js, PostgreSQL | Live | Source

- Developed passenger and driver accounts, ride requests, shared-seat availability, fare estimates and the full ride lifecycle.
- Used database locks and validated transitions to coordinate competing seat requests; tested ownership, concurrent claims, cancellations and fare consistency.

MediCura | React, Express, MySQL | Source

- Built patient, doctor and administrator views for appointments, prescriptions, records and medicine orders; added SQL reports for paid-order revenue, order status and daily sales.

EXPERIENCE

Programming and Data Structures Tutor | Self-employed | Fall 2023 - Present

- Tutor 20+ BRAC University students across CSE 110, CSE 111 and CSE 220. Prepare structured lessons and adapt explanations to different levels of programming experience.

EDUCATION

BSc in Computer Science and Engineering | BRAC University
Spring 2023 - Present | Current CGPA: 3.61 / 4.00

ADDITIONAL WORK AND LANGUAGES

Computer vision: Attention U-Net terrain segmentation with PyTorch and a ResNet-50 encoder; ongoing medical image classification thesis. Additional projects and technical case studies are available on the portfolio.

Bangla: native | English: strong speaking and writing | Hindi: good spoken proficiency
